

Start a Student Chapter on Your Campus

Looking for a way to connect your classmates with high-paying jobs, hands-on experience, and real industry connections? Starting a student chapter of the Mechanical Contractors Association of America (MCAA) is easier than you think and MCA of Kansas City is here to help.

Find a Faculty Advisor

Every chapter needs a faculty champion. If you can find one instructor willing to lead, we work with them to take it from there.

Why Start Now?

It's free to join. It's easy to organize. And it opens the door to incredible experiences, from national competitions to all-expenses-paid travel.

Who's Behind It?

MCAA is the national organization supporting union mechanical contractors across the country. MCAKC is your local chapter based in Kansas City, connecting students with real companies, career opportunities, and industry leaders right here in our region. Together, we're here to help you launch, grow, and lead.

What You'll Get

For Your Chapter:

- ✓ Travel to national MCAA events
- ✓ Compete in the Student Chapter Competition
- ✓ Tour local jobsites and shops
- ✓ Receive MCAKC funding and support
- ✓ Access internships and scholarships

For Your Campus:

- ✓ Faculty resources and industry guests
- ✓ Direct links to local contractors
- ✓ Real career paths for students
